

Yuecai Zhu

ML ENGINEER & DATA SCIENTIST

1479 Rue Albert, Saint-Hubert, Canada

☎ 438-345-7638 | ✉ zhuyuecai@gmail.com | 🔗 www.linkedin.com/in/yuecai-zhu/

Experienced ML researcher and data engineer with strong academic and industry research background with multiple publications and pending patents, and strong skills in Spark, Scala, Python, SQL, Tensorflow, Pytorch, Big Data technologies and Software Engineering

Education

Mcgill University

M.Sc. IN COMPUTER SCIENCE

Montreal, Canada

2017 - 2022

Concordia University

B.S. IN COMPUTER SCIENCE

Montreal, Canada

2012 - 2017

Southwest University of Political Science and Law

B.A(ECON) IN INTERNATIONAL COMMERCE AND ECONOMICS

Chongqing, China

2002 - 2006

Experience

Bell Mobility

DATA SCIENTIST & ML ENGINEER

Montreal, Canada

June 2018 - Present

- One of the main data engineers and data scientists for the AI Robocall Detection application to detect fraudulent callers, the first AI solution in Canada. I am named one of the inventors in a patent related to this project.
- Re-architect Bell's first production AI solution - A near-realtime SMS Spam Detection application. This work's major impact is removing a third-party AI application to reduce cost and offer a higher detection rate.
- Develop the first dynamic graph-based ML model for voice network anomaly detection.
- Initiate, architect and lead the development of a universal anomaly detection solution for data quality monitoring.
- Analyze different options for migrating the current data platform to the public clouds, including Databricks and Google Composer.
- Automate the Gitlab onboarding process for public cloud projects.
- Re-architect multiple Spark-based ETL data pipelines and automate their supporting workflows.

Douglas Hospital Research Center

RESEARCH TECHNICIAN

Montreal, Canada

May 2017 - June 2018

- Statistic Analysis for various research projects.
- Published two papers as contributing authors.

Concordia University

RESEARCH ASSISTANT

Montreal, Canada

May 2014 - May 2017

- Extract information from raw data files to the database.
- Data cleaning for further analysis.
- Mathematical Model building.
- Algorithm design.
- Design and perform different kinds of simulation on demand.
- Publish One paper as the first author and two papers as the second author.

Ericsson

TEST INTEGRATION ANALYST

Ottawa, Canada

May 2015 - Aug. 2015

- Extract information from raw test data and build up the database for the research project.
- Perform simulation to evaluate different regression testing strategies.
- Automate the process of synchronizing the research database with the application database.

Hydro One Asset Strategy Department

IT ANALYST

- Analyze electricity equipment usage data.
- Develop Excel applications for internal use.
- Test the new algorithm of the new asset management system.

Toronto, Canada

Jan 2014 - May 2014

Guangdong Development Bank Jiang Men Branch (Guangdong China)

OFFICER SPECIALIZED IN ENTERPRISE BUSINESS

- Analyze business data.
- Draft business documents and reports.
- Help develop marketing strategies.
- Launch the International Transactions Online Declaration System as project manager.
- Complete business research on 'loan with export credit insurance as a pledge.

(Guangdong, China)

Jul. 2006 - Oct. 2009

Honors & Awards

Jan. 2013	Campaign for the New Millennium Student Contribution Bursary,	<i>Montreal,Canada</i>
Oct. 2013	Faculty of Arts and Science Scholar for 2012-2013,	<i>Montreal,Canada</i>
Nov. 2013	Faculty of Arts and Science Dean's List,	<i>Montreal,Canada</i>
Jun. 2014	Canada Undergraduate Student Research Award,	<i>Montreal,Canada</i>
Jun. 2015	Canada Undergraduate Student Research Award,	<i>Montreal,Canada</i>
Sept. 2018	IEEE TCSE Distinguished Paper Award, ICSME 2018	<i>Madrid,Spain</i>
Jan. 2020	Bell's Merit Gold Award, contribution to the projet Universal Call Blocking	<i>Montreal,Canada</i>
May. 2020	Bell's Merit Gold Award, outstanding contribution towards the project RapidMiner replacement for SMS Spammer detection.	<i>Montreal,Canada</i>
